FOR our mutual benefit we have pleasure in herewith presenting to your kind attention our latest catalog, the largest and most complete we have ever issued, illustrating and describing our large and varied line of Art Needlework Supplies, Linens for Art, Household and Dress Use, Ladies' and Gentlemen's Handkerchiefs and various Kindred Novelties. ¶ Owing to the liberal and constantly increasing

patronage of our many kind friends throughout the United States of America and Dominion of Canada during the past years, we are now in a position to serve your interests better than ever before, and to attend carefully to the orders of many new customers. Our present contracts with the largest and most reliable mills of Great Britain, Continental Europe and several of the foremost American producers have all been placed months ago, under the most favorable conditions, and many of our numbers have been made especially to suit the requirements and demands of our own discriminating clientele. ¶ The greatest care and precaution possible has been taken in every instance to have the merchandise made fully up to standard and catalog description. Our principal aim will be, as in past years, to give our customers, old and new, one and all, a genuinely satisfactory and square deal. As proof of our sincerity remember our motto is always, "Your entire satisfaction or your money refunded." ¶ On this basis we have done a constantly increasing business during the past several years, and adhering firmly to this same principle, but with a larger, more complete and varied stock of reliable merchandise added to our better and increased business facilities, we solicit your further patronage for the coming year.

1911

NOTE Please keep this catalog where you can get at it readily. You will surely need it many times during the year, and you can positively depend on it to save you money or secure you better quality goods for the same money. Next September we will send you a new supplement.

HOW TO ORDER

When ordering make order plain and itemize same. Check it over very carefully, and make sure that you have given the correct style, number, color, size, as called for in the description of each article you order.

When order is to be sent to different parties write each order on a separate sheet.

Write very plainly, and always sign your name the same way. If you are married, always sign your husband's initials. Be particular to give street address (if any), rural route number (if any), town, county and state. When you change your address advise us at once, giving the old as well as the new address.

TERMS

We employ no agents. No goods charged to any one.

HOW TO REMIT

Make all remittances payable to Frederick Herrschner. Send all amounts above \$1 by registered letter, bank draft, postoffice or express money-order. Amounts of 25c and under can be sent in postage stamps (one and two-cent stamps preferred). **No Canadian stamps will**

be accepted. Don't stick stamps to your letters. Currency sent in ordinary letters is at your risk. **Private checks** will not be accepted unless certified and accompanied by **10c extra for exchange.**

SHIPPING GOODS BY MAIL AND EXPRESS

Postage paid on all orders amounting to more than 25c. **On orders for less than 25c always add 2c for postage.** We make this rule because ladies sometimes send in an order for half a yard of braid or a few rings, costing, perhaps, 2c or 3c, and it takes all we get to pay the postage. **We do not pay postage to foreign countries.**

Any goods sent by mail will be sent at your risk unless **10c is added to register same.** All C.O.D. orders must be accompanied by one-fourth of amount as a guarantee that goods will be taken from express office. The guarantee will be credited on your bill. We do not pay express charges on packages sent C.O.D.

IMPORTANT—ABOUT DELAYS

We fill orders promptly. If you do

not hear from us in a reasonable length of time write us, giving us the facts viz.: When you ordered, what you ordered, how much you sent us, and in what form—cash, stamps, etc. In nine cases out of ten the delay is caused by the name and address having been left off, or similar errors over which we have no control. By conforming with the above your complaint will have prompt and careful attention.

CLAIMS FOR SHORTAGE

All claims for shortage must be made within three days after receipt of goods, otherwise no allowance will be made. Always keep a duplicate of the order you send us, and be sure to carefully compare your goods with it on arrival.

HOW TO RETURN GOODS

Goods stamped or made to order, yard goods cut, pink cambric and perforated patterns cannot be returned. All goods returned to us must have the name and address of the sender on the outside of the parcel. Unless this request is complied with we are unable to insure proper attention, and the advice should be sent separately by mail. Never enclose any writing or

seal the package (if returned by mail), as it then will be subject to letter rate, 2c per ounce. Damage in transit either way through the mail is at customer's risk.

REMEMBER THIS

All perforated patterns, cambric patterns and stamped linens shown in former issues of our catalogs can still be supplied.

In writing for information please enclose stamp for reply.

INSTRUCTION BOOKS from D. M. C. Library

In the endeavor to develop the taste for fancy needlework, and to make the use of the numerous articles better known that are made especially for sewing and embroidery, a series of works is here offered containing a world of information dealing with every kind of known needlework.

Each album is composed of a series of very varied designs with an explanatory text, by the aid of which it will be found easy to carry out even the most complicated work.

Although these publications surpass all that has ever been done in this way before—by their artistic value, the choice of the designs and the attention applied to their execution—yet they are sold at a price quite inferior to their real value. They could not have been produced under more favorable conditions, in consequence of the important editions and their intended aim.

As the text, however, is of secondary importance, while the designs are the principal point, those works which are not published in the English language can also be used to a great advantage in the United States and Canada.

No. 772. Embroidery on Tulle, 1st Series—Album in large octavo, containing 16 plates printed in black and 8 plates in colors with numbers of patterns for laces, edgings and insertions and powderings preceded by an explanatory text facilitating the execution of embroidery on tulle. Text in English. Price. **35c**

No. 773. La Dentelle Renaissance (Point Lace)—Containing 76 pages of text with explanatory figures, 10 plates without text and 10 patterns on cambric

for executing the designs reproduced on these plates. Size of book 6x9. The cambric patterns alone in this book are worth the price charged for the book. Illustrations are very plain and so clearly printed that they can be copied by anyone without understanding the text. Text in German. **45c**

No. 774. Tenerife Lace Book—Containing a great number of patterns for wheels, borders and lace, and an explanatory text in English. Size 5½x8. Price **19c**

No. 775. Crosstitch, New Designs, 1st Series—Size 5½x8. Containing 24 colored plates. The designs in this book are entirely different from those in Albums II and III. Price. **12c**

No. 776. Instruction Book on Irish Crochet Lace—52 pages of text with numerous explanatory figures and 7 plates of patterns for Irish Crochet Lace, to which are added tracings on linen for reproducing the patterns illustrated on the plates. Size 8x11½. Text in English. Cambric patterns contained in this book are actual size and are alone worth the price asked for the book. **65c**

No. 786. Encyclopedia of Needlework—A handsome volume of about 800 pages illustrated by 1107 engravings and 13 colored plates. The most exhaustive work of its kind, completely covering the entire art of needlework. English cloth binding, gilt tops, size 4x6. Price each. **65c**

No. 787. Album II—20 plates with colored designs, size 8x11½ inches, showing 182 designs in crosstitch work. Artistic cover. Price each **19c**

No. 788. Album III. Crosstitch work—20 plates, size 8x11½ inches. Artistic cover. The designs in this Album are entirely different from Album II. Price each **19c**

No. 789. Motifs for Embroideries (3d Series)—Size 8x11½ inches, containing 20 colored plates, composed of various designs in modern style, for embroidery on counted threads. Price each **29c**

No. 790. The Embroiderer's Alphabet—4x6 inches, containing 82 colored plates composed of alphabets, monograms and patterns for counted-stitch embroideries, followed by 10 plates of monograms and festoons with tracings for white embroidery. Attractive cover. Price each **25c**

No. 791. Crochet Work (3d Series)—Size 8x11½, containing 14 plates with a great variety of patterns for crochet work and explanatory text with figures. Artistic cover. Price each **45c**

No. 792. Instruction Book on Fillet Work—Size 6x9, containing 20 colored plates, showing designs in actual size, making it easy to copy. The text in

this book is in the German language, but the illustrations are so clear that they can be easily understood by anyone. A handsome book. Price each **25c**

No. 793. Instruction Book on Drawn Work—6x9 inches, illustrating all the stitches used in this fascinating work. It also contains 20 plates, showing a variety of patterns. We would recommend your orders for the above in lots of not less than six. You can leave the assortment of patterns to us, and we will guarantee you will not be disappointed. The illustrations, we regret to say, give only a very faint idea of the actual worth and beauty of these really exceptional handkerchiefs.

No. 1256. This quality we have called "Our Leader." It is a heavier cloth than our No. 1255, made for us by the same Irish mill, and we can unhesitatingly recommend it for durability and complete satisfaction to the most particular housekeeper. Nothing better in cloth, finish or design comes to the United States from any of the foreign linen manufacturing countries at or near the prices quoted. The pattern range is more extensive, TOO, than in any of our other numbers, including both single and double border effects. **Pattern No. 10,** snowdrop with single Grecian key border. **Pattern No. 11,** coin spot, dime size, with effective scroll border.

No. 1257. This is a finer yarn goods, rich satin finish, but while a more expensive linen is not any heavier in weight, nor has it any better wearing qualities than our No. 1256, it will, we think, be fully appreciated by those who like really fine linen. The pattern designs, while not as extensive as in the other ranges, have a personality of their own, which can hardly be described adequately here. All we can say is they will surely not disappoint your expectations, and we have several new designs to come, made especially for round tables, but when compiling this catalog they had not arrived in this country. However, remember, "your money back

No. 1258. "A thing of beauty and a joy forever." You cannot help but admit the truth of the above quotation, we think, when applied to the handsome designs and the rich snowy double satin damask that you will receive when ordering this particular number. These cloths, which represent some of the finest products of the Irish looms, are not intended for every-day use, and with ordinary good care will undoubtedly last many people a lifetime. The patterns are all elaborate, but extremely difficult to portray or describe with any degree of accuracy. **Pattern No. 4**, 1½ inch wide, plain satin stripe with deep border of geometrical design, a strikingly rich

and neat effect. **Pattern No. 5**, a small daisy filling in center, deep double borders of ribbon and large bunch of daisies and foliage. **Pattern No. 3**, plain center with rich double border of nasturtiums and leaves, a decidedly handsome round table design. **Pattern No. 1**, roses and scroll work, see illustration. **Pattern No. 2**, calla lilies and maidenhair fern, see illustration. **Pattern No. 6**, water lilies and leaves, with deep border of cat-tails and lilies and foliage, a most beautiful pattern, especially for a cloth 2½ yards or longer. **Pattern No. 7**, "German renaissance" design. All scroll or arabesque work, and the effect is very rich and effective. **Pattern No. 8**, basket of wild roses for center. Deep border of roses and bow-knot of ribbon with wide ribbon streamer, catching at intervals large baskets of pansies. A decidedly new novelty design and a general favorite.

Please take notice that the numbers given on the above illustrations are the numbers of the designs, not the numbers of the hemstitched linens. The above designs are in addition to our large range of patterns used for stamping plain hemstitched scarfs and cloths. We can supply all of these in plain hemstitched or with the patterns stamped thereon, as you may desire. But in ordering always specify if linens are wanted stamped or plain. Corner and floral designs shown in previous issues of catalogs can be stamped on hemstitched linens, but it must be left to our judgment to use the proper size design for the pieces ordered. We also desire to draw your special attention to a new feature this season, which we have had made specially to meet the numerous requests of our customers, viz.: Extra large sizes for bed spreads, table cloths, etc. The linen cloth is somewhat heavier in weight than the quality used for lunch cloths, pillow shams, bureau covers, etc. This is our quality No. 5111 (see prices given above). They are made with a three-inch hem and are double hemstitched all around. These pieces can be stamped with designs we illustrate in our bed sets. We have a good many requests from parties who embroider large lunch cloths and bed spreads to have the design only stamped, omitting the scallop, so that there will not be so much work.

Prices subject to change without notice. Read footnote carefully before ordering. See pages 106, 107 and 108 for more designs to select from

REIS' FOUNDATION PATENT WASHABLE LETTERS FOR HAND EMBROIDERY

Offer you the easiest, quickest and cheapest method of embroidering initials. They are made of a guaranteed washable material and will outlast the article to which it is embroidered. You simply baste the initial on the goods with a few stitches, and when embroidered over with either silk or cotton it produces the beautiful raised effect of hand embroidery which is acquired by the more difficult and slower process of stamping and filling in.

These panels are our own exclusive styles, showing new features not usually shown in stores

Referring to the above lines of fancy panels, and in connection with our curtain line generally, we earnestly solicit your careful attention and at least a trial order. In the selecting and arranging of these goods we have gone into the matter most thoroughly, and we feel certain that the qualities and values offered are reliable and superior. The goods are all of foreign production, and include what we considered the choicest styles of several leading European manufacturers. In ordering please be explicit, giving full particulars as to the size and shade desired, and we will attend to your wishes to the fullest extent possible, and if the panels or curtains do not open out to your entire satisfaction remember we will be quite willing to refund your money if you so desire.

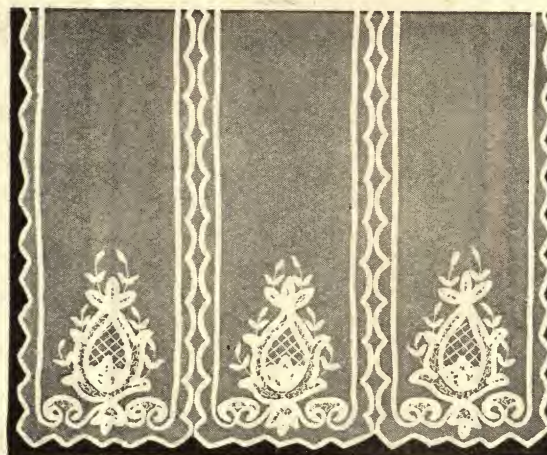

But as already stated, we have complete confidence in the correctness and practical utility of the entire line, and we feel sure that in such cases as we may possibly fail to please, it will be more our misfortune than our fault, and then you will find us ready to promptly "make good" in whatever way the customer may desire.

Your liberal patronage is respectfully solicited.
